Re: 24"x48" Packaging Update

In order to optimize square feet per pallet and assist with transportation, we would like to introduce new packaging for 24"x48" products.

Please note that there will be a transitional period of time from old to new packaging. The number of cartons and square feet total is notated on your purchase order confirmation and packing lists accordingly.

Package information change as listed below:

OLD PACKAGING	NEW PACKAGING
4 pcs/box	4 pcs/box
31.668 SF/box	31.668 SF/box
20 box/pallet	16 box/pallet
633.36 SF/pallet	506.688 SF/pallet

Thank you for your continued support.

Best regards,

StonePeak Operations
