The Company

For over two decades, Stonepeak has been a trailblazer in the porcelain industry, embodying innovation, sustainability, and unwavering excellence. Our journey began nestled in the hills of Tennessee's Smoky Mountains, where we made it our goal to produce the highest quality, most eco-friendly product on the market.

At Stonepeak, we thrive on pushing boundaries, introducing groundbreaking technology and advancements that elevate our products beyond the ordinary. From cutting-edge designs to sustainable manufacturing practices, innovation is woven into our corporate DNA.

As stewards of the environment, we take immense pride in our commitment to sustainability. Our meticulously crafted high-quality porcelain surfaces aren't merely beautiful; they are also environmentally responsible. We believe in leaving a positive legacy on the planet for generations to come.

While our roots remain firmly planted in Crossville, TN, our influence extends far beyond. Stonepeak serves clients across the nation, gracing homes, commercial spaces and architectural marvels with our exceptional products.

Not long ago, we envisioned a company that would seamlessly unite the finest products with a genuine focus on people. Today, that vision is our reality—a refreshing transformation in the ceramics industry where our commitment to you remains unwavering.

Sustainability

As the U.S. operation of the renowned Iris Ceramica Group, Stonepeak is deeply rooted in a legacy of sustainability. Our journey begins with the visionary founder, Romano Minozzi, who coined the term “Economy = Ecology” in the 1960s. This powerful concept encapsulates his vision of an economy that serves both humanity and the environment we inhabit.

Inheriting this profound philosophy, Stonepeak has always had sustainability woven into its DNA. Our commitment extends beyond mere words; it is reflected in every aspect of our business.

Stonepeak continuously works to create a higher environmental standard, striving to lower its carbon footprint and provide customers with the most ecofriendly porcelain product on the market.

To reduce energy, water, and waste, Stonepeak introduced an innovative formula that utilizes mostly raw materials found in the U.S., with a vast majority being sourced within 250 miles from our manufacturing plant in Crossville, TN. This produces a greener generation of products that is American made.

Our state-of-the-art manufacturing facility also operates with sustainability at its core. Key practices include a nearly closed-loop process, where raw materials and water waste are efficiently recycled back into production. Additionally, our facilities exceed legal requirements, incorporating antipollution devices such as smoke and sand depurators, water purifiers, and reutilization of heat from kilns and production losses. The plant also utilizes eco-conscious packaging and has received accolades from rigorous certifications such as DECLARE, ISO 9001, LEED, EPD, GREENGUARD GOLD, and GREEN SQUARED.

At StonePeak, our commitment to the environment resonates through every solution we create. We firmly believe that sustainable practices not only benefit our planet but also enrich the lives of those who choose our products.

The collection

Large-format porcelain slabs engineered to be applied anywhere.

From indoor and outdoor spaces to tabletops, countertops, flooring, walls, custom furnishings, and beyond, our 12mm U.S.-made porcelain slabs provide versatile solutions for any setting.

The Limitless Porcelain® collections, Dolcissima and Maestro are the American-made, large-format 12mm porcelain slab series that offers a diverse array of aesthetics, including classic marble, industrial concrete, sleek modern stone, and more. Ideal for large-scale design projects, these slabs are also perfect for bookmatching applications, creating a stunning visual impact.

Design Highlights

On-Trend Styles

Our extensive range of looks, colors, and patterns ensures the perfect fit for any design vision. From timeless classics to bold, contemporary aesthetics, our premium porcelain surfaces elevate the aesthetic of any room, perfectly tailored to your vision.

Numerous Finishes

Our various finishes allow Limitless Porcelain® surfaces to be applied anywhere. Polished finishes, for example, provide a shiny, elegant look for countertops, while Natural+ finishes offer high DCOF, making them perfect for floors in showers or outdoor areas.

Bookmatch Options

For larger spaces, some of our products are available in a bookmatch option, further enhancing the visual impact and creating an eye-catching, cohesive design. This feature adds an extra layer of elegance and makes a striking impression.

Unmatched Results

With recent investments in machinery at our state-of-the-art manufacturing facility, our porcelain slabs showcase top results in the industry including intricate designs, expansive color variations, realistic patterns and textures, and more.

Advantages and Benefits

Beyond their stunning visual appeal, our large-format 12mm porcelain slabs offer a multitude of performance benefits, enhancing design spaces with both beauty and functionality.

Hardness (Mohs)	C 1895 - 20	Range 0 - 10	≥ 7 ⁽³⁾
Visible Abrasion Resistance	C 1027 - 19	No Requirement	Provided on request
Frost Resistance	C 1026 - 13	No sample must show alterations to surface.	No evidence of damage
Chemical Resistance	C 650 - 20	Range E - A	Class A ⁽⁴⁾
Stain Resistance	C 1378 - 20	Range E - A	Class A ⁽⁴⁾
Slip Resistance (DCOF)	A 326.3 – 2021	≥ 0.42	≥ 0.42 ⁽²⁾
Aesthetic Classification	Visual Evaluation Shade & Texture	No Requirement, Range V0 - V4	Depends on color

- (1) All values given are for natural finish. Values for different finishes are available upon request.
- (2) DCOF results referring to textured/natural products are performed with the WET test, while for polished and silky the DCOF test is performed DRY. The values of dynamic friction coefficient (DCOF) shown in the catalogue, web site or sales documents in general, are merely indicative and non-binding. Any possible specific requirement must be confirmed by us at the order and anyway always before the installation.
- (3) Mohs result referring to textured/natural finish. For polished/silky finish: ≥ 6
- (4) Chemical and stain resistance are referring to textured/natural finish. For polished/silky finish, tests are provided on request.
